A Correction.

Wir gret that injustice was flow Alderniou Alamain by report of lug meetrg of the City Government Inceday night although the fault was not in this office. In the final vote on the order to increase the pumping capacity at the dam Mr. Admins is reported as not voting when as a matter of fact he did vote just he same as on the first ballot thus making his record entirely consistent. The linal vote was not taken by reas and asys, but was a hand vote Mesers. Ward, Porter and Earle voted to concur with the lower board, and Mosses. Grant, Glass and Adams voted in the negative. City Clerk Brett did not see Alderman Adams' hand and informed the reporters that the order was passed by a vote of three to two, when as a matter of fact of fact the vote was a tie and Mayor Beal dethand the order adopted, thus giving the ensting vote in its favor. Alderman Wescott was engaged in conversation in un adjoining room and did not know the board was in session until after the vote had been declared. Mr. Adams was naturally surprised to see the announce-ment that he had not voted and we do not wonder that he felt approved at he ing placed in an inconsistent attitude But miatakes will sometime and even as reliable a man as City Clerk Brett whose reports are usually so ne-curate cannot always escape.
